ACTION OFFICER: See below

[REDACTED] requests guidance as to the feasibility of passing a sanitized version of Current Support Memorandum No. 69/59 Sino-Soviet Trade, 1958-59 to the [REDACTED]. Since the report is apparently based on open source materials it seems that removal of the cover sheet and page five, along with removal of the identifying legend at the bottom of each page, would render the report suitable for liaison passage.
